

Emergency Action Plan

for <Location Name> on water incidents

In the event of a major incident or injury:

1. Secure the casualty and ensure that they are protected from further danger.
2. Secure the group and make sure that:
 - a. everyone is together
 - b. understands what is happening
 - c. the importance of getting the injured party to shore.
3. Call or ask a member of the group to call 999 and ask for ambulance to this address:

- Physical Address & what3words code of preferred Emergency Access Points (EAPs)

Instruct them to give details of the injury

4. Get Casualty to the shore at the preferred EAPs
5. Administer first aid.

There is a First Aid kit <location of First Aid Kit>.

If practical then recover to preferred EAP and administer there.

If critical then administer on the board.
6. Perform a head count to ensure that the entire group are safely ashore.
7. Give Medical First Responders, details of incident history and treatment provided so far

Full list of EAP's (with a map ideally)

1. Slipway. ///xxx.xxx.xxx
2. Beach 1. ///xxx.xxx.xxx
3. Beach 2. ///xxx.xxx.xxx
